

Date: 01/03/2022

Section 1 - Identification of the Substance/ Preparation and of the Company Undertaking

Product Name: Lecenté Moisturising Lotion for hands & feet

Manufacturer: Nail Perfection Ltd, Unit 15 Canal Industrial Park, Canal Road, Gravesend, Kent. DA12 2PA. UK.

Emergency Phone Numbers: +44 1474 327770

Product identifier Mixture identification: Lotion for skin

Section 2 – Hazards Identification

2.1. Classification of the substance or mixture

According to regulation (EC) No 1272/2008: The product is not classified as dangerous according to regulation (EC) No 1272/2008.

Important adverse physicochemical, human health and environmental effects:
Not applicable.

2.2. Label elements

According to regulation (EC) No 1272/2008: Not applicable.

2.3. Other hazards

Product does not meet the criteria for PBT or vPvB in accordance with Annex XIII of REACH (Regulation (EC) No 1907/2006).

See section 11 for more detailed information on health effects and symptoms.

Section 3 – Composition/information on ingredients

3.1. Substances

Not relevant.

3.2. Mixtures

Blend of cosmetic ingredients, non-dangerous organic substances and aromatic composition

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

See section 16 for the full text of the R & H phrases declared above.

Occupational exposure limits, if available, are listed in section 8.

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] PBT-substance

[4] vPvB-substance

Section 4 - First aid measures

4.1 Description of first aid measures

General advice:	Remove contaminated clothing.
Inhalation:	Remove to fresh air. Get medical attention if symptoms occur.
Skin contact:	Flush with plenty of water. Remove contaminated clothing.
Eye contact:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Obtain medical attention, if symptoms persist.
Ingestion:	Wash out mouth with water. Move exposed person to fresh air. Do not induce vomiting unless directed to do so by a doctor. Get medical attention if symptoms occur.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation:	No known significant effects or critical hazards.
Skin contact:	No known significant effects or critical hazards.
Eye contact:	No known significant effects or critical hazards.
Ingestion:	No known significant effects or critical hazards.
Repeated overexposure	No known significant effects or critical hazards.

4.3. Indication of any immediate medical attention and special treatment needed

Specific treatments: Not available.

See section 11 for more detailed information on health effects and symptoms.

Section 5 - Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media:	Carbon dioxide, foam, powder.
Unsuitable extinguishing media:	Water.

5.2. Special hazards arising from the substance or mixture

Water may be ineffective in fighting fire. If water is used to cool closed containers to prevent pressure build-up, fog nozzles are preferred. Full protective equipment, including self-contained breathing apparatus is needed to protect fire-fighters from exposure to coating's hazardous ingredients and hazardous decomposition products.

5.3. Advice for firefighters

Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear. During emergency conditions, overexposure to decomposition products may cause a health hazard; symptoms may not be immediately apparent. Obtain medical attention.

Section 6 - Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. SPILLED MATERIAL IS EXTREMELY SLIPPERY!

6.2. Environmental precautions

Do not empty into drains / surface water / ground water. Prevent further leakage or spillage.

6.3. Methods and material for containment and cleaning up

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal. Dispose of in accordance with local regulations.

6.4. Reference to other sections

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

Section 7 - Handling and storage

7.1. Precautions for safe handling

Protective measures: Do not ingest. Avoid contact with eyes, skin and clothing. After handling, always wash hands thoroughly with soap and water.

Advice on general

occupational hygiene: Good industrial hygiene practices should be observed.
Wash hands before work breaks and after finishing work.
Do not eat, drink or smoke while working.

7.2. Conditions for safe storage, including any incompatibilities

Storage: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use.

7.3. Specific end use(s)

Industrial sector specific solutions: Not applicable.

Section 8 - Exposure controls/Personal protection

8.1 Control parameters

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

Occupational exposure limits: Limit values are laid down throughout the EU, but each Member State establishes its own national OELs, often going beyond EU legislation. OELs are set by competent national authorities and other relevant institutions.

OELs in EU level: - Values not established.

Recommended monitoring Procedures:

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

8.2 Manufacturer: Exposure controls

Appropriate engineering Controls:

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Individual protection measures: Hygiene measures: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

Respiratory protection: No special requirements.

Eye/face protection: Safety glasses with sideshields or chemical safety goggles should be worn if there is a risk of splashing.

Skin protection: No special requirements. Cosmetic product.

Environmental exposure controls:

According to available technology.

Section 9 - Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance Physical state	Cream
Colour	White
Odour	depends on composition of aromas
Odour threshold	Not applicable.
pH at 25 °C	6,5-7.0
Melting point/freezing point	Not available
Initial boiling point and boiling range	Not available
Flash point	> 100 °C
Evaporation rate	Not available
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	Not available
Vapour pressure	Not available
Vapour density	Not available
Relative density	Not available
Solubility(ies)	Not available
Partition coefficient: n-octanol/water	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Viscosity	3500-5500mPa*s (Brookfield, 24h, room temp, s64, 60S 100RPM)
Explosive properties	Not available
Oxidising properties	Not available

9.2. Other information

Impurity	Not available
----------	---------------

Section 10 - Stability and reactivity

10.1. Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

10.2. Chemical stability

Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

Material WILL NOT undergo hazardous polymerization.

10.4. Conditions to avoid

Not known if used properly.

10.5. Incompatible materials

None known if used properly.

10.6. Hazardous decomposition products

Various organic compounds.

Section 11 - Toxicological information

11.1. Information on toxicological effects

Product: 1272/2008.	The product is not classified as dangerous according to regulation (EC) No
Ingredients:	Does not contain dangerous substances.
Acute toxicity:	No known effect according to our database.
Eye irritation:	No known effect according to our database.
Skin irritation/corrosion:	No known effect according to our database.
Sensitisation:	No known effect according to our database.
Repeated dose toxicity:	No known effect according to our database.
Carcinogenicity:	No known effect according to our database.
Mutagenicity:	No known effect according to our database.
Toxicity for reproduction:	No known effect according to our database.
STOT:	No known effect according to our database.

Potential acute health effects

Eye contact:	No known significant effects or critical hazards.
Inhalation:	No known significant effects or critical hazards.
Skin contact:	No known significant effects or critical hazards.
Ingestion:	No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact:	No specific data.
Inhalation:	No specific data.
Skin contact:	No specific data.
Ingestion:	No specific data.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure:	
Potential immediate effects:	Not available.
Potential delayed effects:	Not available.
Long term exposure:	Not available.
Potential immediate effects:	Not available.
Potential delayed effects:	Not available.
Potential chronic health effects:	Not available.

Conclusion/Summary

General	No known significant effects or critical hazards.
Carcinogenicity	No known significant effects or critical hazards.
Mutagenicity	No known significant effects or critical hazards.
Teratogenicity	No known significant effects or critical hazards.
Developmental effects	No known significant effects or critical hazards.
Fertility effects	No known significant effects or critical hazards.

11.2. Other information

Not available

Section 12 - Ecological information

12.1. Toxicity

Aquatic toxicity Not classified.

12.2. Persistence and degradability

Readily biodegradable.

12.3. Bioaccumulative potential

Low.

12.4. Mobility in soil

Not available.

12.5. Results of PBT and vPvB assessment

Regarding all available data on biotic and abiotic degradation, bioaccumulation and toxicity it can be stated that the substance does not fulfil the PBT criteria (not PBT) and not the vPvB criteria (not vPvB). .

12.6. Other adverse effects

No known significant effects or critical hazards.

Section 13 - Disposal considerations

13.1. Waste treatment methods

Product:

Methods of disposal:

Waste must be disposed of in accordance with federal, state and local environmental control regulations. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Hazardous waste:

Within the present knowledge of the supplier, this product IS NOT regarded as hazardous waste, as defined by EU regulation 1357/2014 16 03 06 organic wastes other than those mentioned in 16 03 05

European waste catalogue (EWC):

Packaging:

Methods of disposal:

The generation of waste should be avoided or minimized wherever possible.

20 01 02 glass

20 01 39 plastics.

Waste packaging should be recycled.

Special precautions:

This material and its container must be disposed of in a safe way.

Section 14 - Transport information

ADR / RID

Not classified as hazardous under transport regulations.

IMDG / IMO

Not classified as hazardous under transport regulations.

ICAO / IATA

Not classified as hazardous under transport regulations.

Section 15 - Regulation information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH):

Annex XIV - List of substances subject to authorization:

Substances of very high concern: None of the components are listed.

Annex XVII – Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles:

Not applicable.

15.2. Chemical safety assessment

Chemical Safety Assessment following regulation 1907/2006/EC:

A Chemical Safety Assessment has not been carried out

Section 16 - Other information

Abbreviations and acronyms:

Full text of abbreviations

CLP: Classification, Labelling and Packaging Regulation [Regulation (EC) No.1272/2008]

ADR: The European Agreement concerning the International Carriage of Dangerous Goods by Road

RID: International Rule for Transport of Dangerous Substances by Railway

MDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

CAS: Chemical Abstracts Service

EINECS: European Inventory of Existing Commercial chemical Substances

LC50: Median lethal concentration

LD50: Median lethal dose

REACH: Registration, Evaluation and Authorisation of Chemicals

PBT: Persistent, bio-accumulative and toxic

vPvB: Very persistent, very bio-accumulative

Full text of classifications and H statements [CLP/GHS]:

Not applicable

Classification system:

Classification for health effects: conventional (calculation) method is used.

Not classified.

Classification for physico-chemical effects:

No classification.

Classification for environmental effects: conventional (calculation) method is used.

No classification.

Training advice:

In addition to health, safety and environmental training programs for their workers, companies must ensure that workers read, understand and apply the requirements of this SDS.

Used literature:

European Chemical Agency's homepage (<http://echa.europa.eu/>).

Safety data sheets of individual components.

Safety Data Sheet Lecenté Moisturising Lotion for Hands & Feet

Date: 01/03/2022

DISCLAIMER OF LIABILITY:

The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or method of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be applicable.
